CPR for Healthcare Provider Course
(6 hour class)

- This course is designed to teach the skills of CPR for victims of all ages (including ventilation with a barrier device, a bag-mask device, and oxygen), use of an automated external defibrillator (AED) and relief of foreign body airway obstruction (FBAO) in victims of all ages.
- It is intended for those who work in a healthcare setting and those who are required to take a healthcare provider course for their employment.
- The AHA expectation is that all healthcare providers will be proficient in bag-mask ventilation, and use of the automated external defibrillator - these skills are taught in this course.
- Questions: Please call the AHA Training Center at 541-706-5845
