

Bariatric Surgery Conference of the Cascades

Metabolic Mechanisms and Consequences

October 23—25, 2008

The Riverhouse

Resort, Hotel & Conference Center—Bend, Oregon

Bariatric Surgery Conference of the Cascades Metabolic Mechanisms and Consequences

Please Join Us in Bend, Oregon! This two-day conference provides a forum for an integrated learning experience about bariatric surgery. The conference is of value to primary care physicians, bariatric surgeons, nurses, dietitians, social workers, and other allied health professionals who are involved in the care and management of the morbidly obese patient.

Carefully selected national speakers as well as local experts will ensure this is a high quality education event. Planned topics include: Point-counter points; Landmark papers; access to care; future techniques; diabetes and why it goes away after gastric bypass; sleep apnea; long-term advantages and disadvantages of gastric banding; Vitamin D, calcium deficiency; pre and post-op management; cancer and obesity; body composition; spiritual metabolism of weight loss; the relationship between prevention, personal responsibility and treatment of obesity, and more!

Keynote Speaker

Scott A. Shikora, MD, FACS,
President, American Society for Metabolic and Bariatric Surgery
Professor of Surgery; Chief, Division of General Surgery;
Chief, Bariatric and Minimally Invasive Surgery, Tufts University School of Medicine
